#### Jeff McBride:

If you are a show planner looking for a hot new act...you can be sure that Trixx will rock the house!

I have seen his act many times for many diverse audiences. Trixx has an engaging style that always wins the crowd.

"In all my years in show business as an agent, producer and theatrical manager, I have never seen a magic act, that if I had to repeat the date with any another magician, the client would be very disappointed. You handled everything in a most professional manor before, after and during the show. No one can follow the response and appreciation you received from the crowd of 70 children AND adults at a private party in a Naples, FL home, that I had the privilege to witness. And that's the truth, I mean it."

Michael Trixx is genuine, fun and likeable and I had a good time watching him. He totally won me over. Michael's audience obviously likes him for who he genuinely is. And he has a new fan: Me.
